Copyright © 2006 – 2021 Point Mobile Co., Ltd. All rights reserved

# **User Manual**

Please note your phone is battery-embedded design with removable battery and battery cover. Unauthorized personnel are strictly prohibited from disassembling the phone. Make sure to use only the power adapter (5V 2A Output AC/DC) that came with PM550.

In case your phone does not work as expected, you are strongly recommended to restart it by pressing and holding the power button for at least 12 seconds until the startup screen appears. If your phone has encountered a serious error and cannot be recovered, you should reset your phone to factory settings by using the menu, either "Backup & Reset", or "Factory Reset". For more details, please refer to "Factory data reset" section.

**Note:** Please be cautious while performing the factory data reset. Because this will erase personalized settings and data saved in your phone, such as SMS, Contacts, Music, etc.

www.sar-tick.com

#### **Body-worn Operation**

This device was tested for typical body-worn operations with the front & back of the phone kept 0.2 inches (0.5 cm) between the user's body and the front & back of the phone. A minimum separation distance of 0.2 inches (0.5 cm) must be maintained between the user's body and the front & back of the phone. Any belt clips, holsters, and similar accessories containing metallic components may not be used. Bodyworn accessories that cannot maintain 0.2 inches (0.5 cm) separation distance between the user's body and the front & back of the phone, and have not been tested for typical body-worn operations should be avoided.

#### **PROTECT YOUR HEARING**

To prevent possible hearing damage, do not listen at high volume levels for long periods. Exercise caution when holding your device near your ear while the loudspeaker is in use.

### Accessary

**Getting Started** 

Plug (US/ EU/ UK)

USB Type-C cable

AC/DC adapter

Li-ion battery (6300mAh)

# Charge PM550

**Getting Started** 

1. Insert "Battery" into the Gun handle. Press the Battery lock and turn the Battery to "Lock" position (Clockwise)

# Charge PM550

**Getting Started** 

2. Connect the AC/DC adaptor to your device and wall socket respectively

3. LED indicator will display charging status.

Steady Red	Battery is charging
Blinking Red	Battery level is critical low
Steady Green	Battery is fully charged

PM550 Battery Specification

Main Battery	6,300mAh / 3.63V
Backup Battery	60mAh / 3.7V
Charging time	About 6.5 hours

**Note:** Always use an original charger and cable from the Point Mobile. Other chargers and cables may damage PM550. In addition, make sure connector, charger, cables are not wet.

# Turn On/Off PM550

**Getting Started** 

#### Turn On

- 1. Press and hold the "Power Key" for a few seconds.
- 2. When PM550 enter to the boot mode, it will display "SMART BEYOND RUGGED" logo with short vibration
- 3. Release the "Power Key" and wait until PM550 finish booting

Note: If you cannot turn on your PM550, try below steps

- To turn on PM550, battery needs to be charged certain level. Please charge first
- Press and hold the "Power key" for 12 seconds to force reboot
- Press and release the "Reset Hole" and then turn on PM550 again (Check)

#### Turn Off

1. Press and hold the "Power Key" until you see the power menu

2. Among the menu, tap "Power Off"

# Hot swap the battery

Getting Started

When battery level is low, you can replace the battery without turning off and on PM550.

- Remove the Battery and replace to another one.
- Make sure the battery is locked properly.
- Press the Power Key to use PM550 again.

# Use a keypad

Learning the basics

Power key

Press

Press and hold

- Lock the screen / Light up the screen.

0

- Display the power menu "Power Off / Reboot / Airplane mode"

Press and hold for 12seconds

- Forced to reboot

Press the "Power" key and "Home Button" key together

- Screen capture

#### Scanner trigger

When "Scan Setting" is turned on

- By pressing, PM550 scan the barcode.

# Using a keypad

#### Learning the basics

#### Numeric KeyPad

#### Take Bug Report

This function save logs and event to the internal storage. When you have a field issue, and need to contact service center, please find the reproduce step first.

- Reproduce the issue.
- After issue, reproduce, please run **Take bug report**.
- File will be saved to **bugreports** folder.
- Copy the file to the PC and then zip it to reduce the file size.
- Share bug report file to the service center or Point Mobile Support team with reproduce steps.

## Safety Information

#### **Battery Safety Information**

Follow battery safety guidelines in this manual for safe usage and disposal of Li-ion batteries. Improper battery usage may result in an explosion, fire, or other critical hazards.

#### **Battery Usage & Disposal Guidelines**

- 1. Use only Point Mobile approved batteries and charging accessories. Other batteries and charger may damage the device.
- 2. Do not disassemble or modify the battery. Do not bend, shred, deform the battery.
- 3. Do not expose the battery to excessive heat or cold. Do not place the battery into a microwave oven or dryer.
- 4. Do not short-circuit the battery or allow a foreign object to battery contacts.
- 5. Do not burn, expose to water, or other liquids the battery.
- 6. If battery leakage is observed, avoid any contact with the skin or eyes. If contact has been made, wash the affected area with water for 15 minutes, and seek medical attention.
- 7. Follow the local regulations for the disposal of used batteries.
- 8. Do not store or charge the battery in direct sunlight or in areas prone to get hot such as in a parked vehicle, near a heat duct, or close to other heat sources.

#### **Battery Charging Guidelines**

- 1. Do not charge the battery in or near areas with materials that could obstruct charging or cause a short-circuit.
- 2. Do not charge the battery in the excessive hot or cold area.
- 3. Separate the charger from the battery as soon as possible when the battery is fully charged.

## Safety Information

#### **Battery Storage Guidelines**

Storing the batteries is as important as using it safely. Battery is a core part of the device's performance so that you should treat the batteries safely.

- Batteries should be stored in the clean, dry and ventilated environment within ambient temperature ranges of 20±5 °C
- 2. Keep batteries away from corrosive substances.
- 3. Keep batteries away from fire and heat.
- 4. Batteries are charged while producing to below 20 ~ 30 % of full capacity for safety regulations.
- 5. Charge it for 30 minutes –1hour at least once every six months to prevent full discharge and

keep the performance, when you are not using the battery for a long period.

**Notice:** The battery is consumable goods. Point Mobile provides warranty for battery in 6 months after purchase.

If you suspect the battery swelling, change the battery and contact Point Mobile to use safely.
