

## Labeling on the cylindrical products

### LR-120

This machine is designed for labelling on the cylindrical products side. The LT-120 comes with 150 mm wide belt conveyor and is ideal for manufacturers which are packing the food, cosmetic, personal care, nutraceutical, electronic.

#### Features:

- Stepping Motor for fast and accurate labeling performance;
- Controlled by Microprocessor, LED display;
- Labels Counting feature / Production Run Counter;
- Label sensor for Paper or Opaque labels;
- Main structure of machine is made by anodize aluminium that CNC processing;
- Height and angle are adjustable;
- In Line Application or Independent Operation;
- Modular design for easy maintenance / Quick and easy Changeover;
- Capacity: up to 120 containers per minute.

#### Options:

- Inkjet printer;
- Hot stamping coding machine;
- Barcode Printer;
- Transparent Label Sensor;
- Conveyor speed adjustment possibilities.

#### TECHNICAL SPECIFICATIONS

<b>Model</b>	LR-120	
<b>Label Size</b>	Width 10-120 mm	Length 10-300 mm
<b>Product diameter</b>	100 mm	
<b>Labeling speed</b>	7-30 m/min (Free adjustable)	
<b>Conveyor width</b>	80 mm (Standard)	
<b>Conveyor length</b>	1100 mm (Standard)	
<b>Turning conveyor height</b>	100 mm	
<b>Turning conveyor length</b>	350 mm	
<b>Features</b>	Labeling Accuracy $\pm 1$ mm	
<b>Weight</b>	130 kg
